Standard & Special Toolholder Systems

We complete the family of High Power Torque Collet Chucks (HPTC) with the addition of Capacity 12, for the following types of tapers:

- HSK-A63
- HSK-A100
- BT-40
- ISO-40
- POLYGONAL LC6

Advantages of High Power Torque Collet Chucks (HPTC):

- Precision of a hydraulic tool holder.
- Flexibility of a collet chuck.
- Higher tightening torque than an ER collet chuck.
- For roughing and finishing, with direct clamping of 12-16-20-25-32-40-50 mm.
- Possibility of using cylindrical collets for smaller diameters.
